Fold 1 - Hero Section

Preheadline:

Your All-in-One Workday Partner

Headline:

Transforming Workday Into Business Value

Subheadline:

Go-live is just the beginning. Zeneesha partners with you from pre-deployment through long-term support - so Workday keeps delivering as your business grows and changes.

Primary CTA:

Request a Complimentary Workday Health Checkup

Actionable Insights. Zero Sales Pitch.

Fold 2: The Challenges After Go-Live -

By 2027, more than 70% of recently implemented ERP initiatives are expected to fall short of their original business case goals.

Section Title

When Workday starts creating more work.

Intro Copy

Choose what your team is facing. See how Zeneesha turns Workday friction into a clearer way forward.

Feeling the pressure?

Select a challenge to see what can improve.

Interactive Challenge Cards

1. Recurring tickets

Visible subheadline:

The same issues keep coming back, draining time and attention.

Dropdown copy:

Zeneesha helps identify the root cause behind repeat tickets, so teams can fix the pattern - not just the symptom.

2. Manual workarounds

Visible subheadline:

Teams build side processes when Workday no longer fits how work happens.

Dropdown copy:

Zeneesha reviews workflows and helps bring processes back into Workday, reducing reliance on spreadsheets, side tools, and manual fixes.

3. Reporting delays

Visible subheadline:

Decisions get made on instinct because the data is not ready in time.

Dropdown copy:

Zeneesha improves reporting visibility and data flow, so leaders can access clearer answers when they need them.

4. Low adoption

Visible subheadline:

Employees have access, but not the confidence to use Workday effectively.

Dropdown copy:

Zeneesha strengthens adoption through better guidance, practical enablement and processes that fit how people actually work.

5. Release fatigue

Visible subheadline:

New updates arrive faster than teams can assess and adopt them.

Dropdown copy:

Zeneesha helps prioritise the releases that matter, turning Workday updates into planned improvements instead of disruption.

6. Underutilised capability

Visible subheadline:

Features you already own sit dormant while teams consider new tools.

Dropdown copy:

Zeneesha helps uncover underused Workday capabilities that can improve performance, efficiency and business value.

Supporting Line

Small signs often reveal bigger opportunities. Zeneesha uncovers gaps, reduces friction and shapes a practical roadmap for improvement.

Fold 3: How Zeneesha Moves Workday Forward

Wherever you are with Workday today, Zeneesha connects the next step with the right expertise.

Subheadline

Zeneesha brings the expertise, innovation, and strategic guidance needed to maximise the value of Workday at every stage.

Lifecycle Graphic Copy

1. Implementation

Start with the right foundation.

Plan, migrate, configure and launch Workday with clarity.

2. AMS & Support

Keep Workday moving.

Resolve issues, manage releases and improve everyday performance.

3. Maximise

Unlock more value.

Use automation, analytics, integrations and adoption support to scale Workday further.

Use this only if the design has space:

We look beyond the immediate issue, uncover the wider opportunity and recommend the right next step for your Workday environment.

Fold 4 - AI & The Future of Workday

Section Title

Workday AI: Hype or Business Value?

Short Copy

Most of the AI capability your organisation needs is already inside Workday. Zeneesha helps you find it, activate it and make it work for your business - responsibly and at the right pace.

HCM

Bring AI intelligence to every stage of the talent lifecycle.

We identify where AI can reduce manual effort across hiring, onboarding, workforce planning and manager workflows - then configure Workday to make it happen.

Finance

Unlock AI within your financial core.

We surface where Workday's AI can improve close cycles, flag anomalies and sharpen spend visibility - so your Finance team acts on insight, not instinct.

Adaptive Planning

Plan smarter with AI-driven forecasting.

We help you unlock Workday Adaptive Planning's AI-driven scenario **planning** - so leadership has a single, trusted view that holds up in the boardroom, not three spreadsheets and a conversation.

Fold 5: Testimonial

Card 1 - AQA

“Zeneesha helped us navigate a complex Workday rollout with the right expertise, flexibility and support. Their team was invaluable in helping make our Workday adoption a success.”

Georgina Taitt

Head of Enterprise Apps | AQA

Card 2 - Warner Music Group

Global Talent Framework

Zeneesha provided Workday technology leadership across job architecture, pay architecture, performance, learning and talent acquisition.

Outcome:

A scalable Workday foundation for global talent transformation.

Card 3 - Booking.com

Workday Production Continuity

Zeneesha supported a critical Workday leadership transition while maintaining delivery, team continuity and progress on key initiatives.

Outcome:

Seamless execution across performance, compensation and production support.

Card 4 - LEGO

Skills-Led Workday Transformation

Zeneesha guided LEGO towards Workday Skills Cloud to reduce integration complexity and support a skills-driven talent strategy.

Outcome:

Stronger visibility into skills, career development and talent planning.

Fold 6: Case Study

Section Title

Proof that Workday can work harder.

Short Intro

Explore how Zeneesha supports complex Workday programmes across reporting, talent, payroll, transformation and global HR operations.

Case Study Tile 1 - KION Group

KION Group

Turning fragmented HR data into one trusted Workday reporting layer.

KION needed clearer workforce, headcount and engagement insights across a complex global HR environment spanning over 100 countries. Zeneesha supported the move to Workday PRISM Analytics, including ETL flow, security design, executive dashboards and discovery boards.

Impact:

A centralised Workday reporting foundation with stronger leadership visibility, reduced data duplication and improved stakeholder engagement.

CTA:

[Read KION Story](#)

Case Study Tile 2 - Warner Music Group

Warner Music Group

Bringing structure to a global talent transformation.

Warner Music Group needed to launch a global Talent Framework across job architecture, pay architecture, performance, learning and talent acquisition, while keeping business, technology and delivery partners aligned. Zeneesha acted as the technology lead, translating business requirements into scalable Workday configuration and reducing delivery risk.

Impact:

A successful rollout of global job and pay architecture, stronger talent processes and a more future-ready Workday foundation.

CTA:

[Read WMG Story](#)

Case Study Tile 3 - Slaughter and May

Slaughter and May

Keeping a Workday HCM migration on track without extending go-live.

During the move from SelectHR to Workday HCM, Slaughter and May needed reliable payroll reporting, secure data feeds, testing support and downstream system readiness. Zeneesha supported reporting, integrations, data validation, regression testing and process guidance across HCM and Absence.

Impact:

End-to-end testing and regression activities were completed within the planned timeline, keeping the project on track for go-live with no extension.

CTA:

[Read Slaughter and May Story](#)

Optional Fourth Tile - AQA

AQA

From Workday backlog to faster delivery.

AQA's HCM support team was facing a growing backlog of Workday requests and defects across recruitment and absence. Zeneesha introduced a clearer prioritisation and intake process to improve triage, communication and delivery focus.

Impact:

Sprint turnaround increased by 700%, from 2 to 16 tickets per sprint.

CTA:

Fold 7 - FAQs

1. How do I know if our Workday system needs a health check?

If you are seeing recurring issues, manual workarounds, reporting delays or low adoption, it may be time to review the causes of friction.

2. Can Zeneesha support Workday after implementation?

Yes. Zeneesha supports post-go-live Workday environments through AMS, optimisation, reporting, releases, integrations, automation and adoption support.

3. We already have an internal Workday team. Can Zeneesha still support us?

Yes. Zeneesha works alongside internal teams with specialist expertise, extra capacity and a clearer improvement roadmap.

4. Which Workday modules does Zeneesha support?

Zeneesha supports key Workday modules including HCM, Finance, Adaptive Planning and Analytics, with expertise across reporting and integrations.

5. What happens during a Workday Health Checkup?

Zeneesha reviews your setup, processes, data, reporting, integrations and adoption to identify gaps, risks and opportunities — then provides a practical optimisation roadmap.

Fold 8: Footer CTA

Headline:

How **optimised** is your Workday performance?

Subheadline:

Zeneesha uncovers operational gaps, reduces friction, and shapes a clear roadmap for continuous improvement.
